Hyung Training Worksheets

Attached are 3 examples for scoring Hyung/Weapon competition that contain some problems the scorekeeper will need to know how to resolve.

Please take the time to understand how to calculate scores and helpful tips such as:

General

- Try our best to pronounce the competitor's name. Call the competitors up in a loud clear voice. Many competitors have the same first name so be sure to call them up by their **full name** and studio if necessary. You want to be sure the right competitor is up.
- Always announce who is up and who is on-deck.
- If you make a mistake, let the center judge know **AS SOON AS POSSIBLE**.

Hyung

- Use pencil to record the scores and write **LEGIBLY!** Lightly cross out the high and low scores and record the sum of the remaining scores. They do **NOT** calculate the average score.
- Calculate the scores as soon as the competitor is done.
